Project GreenReach: Urban Reforestation

Documenting our journey to transform vacant city spaces into thriving community pockets parks and community gardens.

Explore Our Impact

Project Overview & Objectives

Core Objectives

Project GreenReach aims to mitigate urban heat islands and improve local biodiversity by planting native trees and establishing community-managed gardens.

Beneficiaries & Outcomes

The primary beneficiaries are the 1,200 residents of the Oakwood District, who previously lacked immediate access to safe, clean public green spaces.

- **Environmental Clean-up:** Revitalize 3 neglected urban lots.
- **Green Canopy:** Plant over 150 native trees and shrubs.
- **Education:** Host 4 community workshops on sustainable urban agriculture.

Trees Planted

Implementation Stages & Timeline

Stage 1

Site Assessment & Permitting

Weeks 1 - 2

Soil testing, securing municipal permits, and conducting neighborhood survey assessments to gauge community needs.

Stage 2

Clearance & Infrastructure

Weeks 3 - 4

Debris removal, installing eco-friendly irrigation systems, and laying down organic topsoil paths.

Stage 3

Planting & Community Build

Weeks 5 - 6

Volunteers planted native tree varieties, erected raised garden beds, and installed community benches.

Weekly Progress Reports

Week	Activities Completed	Milestones Achieved	Status
Week 1	Soil toxicity analysis, mapped boundary grid lines.	Site safety cleared; blueprints approved.	Complete
Week 2	Community town hall meeting, volunteer onboarding.	Enlisted 45 neighborhood volunteers.	Complete
Week 3	Removed 2.5 tons of trash, graded uneven terrain.	Land cleared for layout deployment.	Complete
Week 4	Installed main water splitters, laid grid mulch lines.	Irrigation lines fully operational.	Complete
Week 5	Mass planting drive, assembled 6 timber garden boxes.	120 trees and all structural boxes placed.	In Progress

Healthy Eating Tips

Small changes can make a big difference.

Stay Hydrated

Drink water regularly throughout the day. Your hydration needs depend on activity and climate.

Eat More Vegetables

Include a variety of colorful vegetables and fruits to get essential vitamins and minerals.

Choose Balanced Meals

Combine whole grains, protein, vegetables, and healthy fats for a balanced diet.

Limit Added Sugar

Reduce sugary drinks and sweets. Choose whole fruits for natural sweetness.

Eat Regularly

Plan regular meals and snacks according to your hunger, routine, and nutritional needs.

Choose Healthy Snacks

Try fruits, nuts, yogurt, or roasted chickpeas instead of highly processed snacks.
